

On-Line Safety Policy

Cayton School	Designated Safeguarding Lead (DSL) team	Mrs. R. Wood
	Online-safety lead	Mrs. R. Wood
	Online-safety / safeguarding link governor	Mrs. C. Tindall
	PSHE/RSHE lead	Mrs. R. Wood
	Network manager / other technical support	Mr. S. Chandler
	Date this policy was reviewed and by whom	December 2021 Mrs. R. Wood/ Mrs. J. Monaghan/ Mr. M. Taylor/ Mr. Vasey November 2022 Mrs. R. Wood/ Mrs. J. Monaghan/ Mr. M. Taylor/ Mr. M. Vasey December 2023 Mrs. R. Wood/ Mrs. J. Monaghan/ Mr. M. Taylor/ Mr. Vasey
	Date of next review and by whom	December 2024 Mrs. R. Wood/ Mrs. J. Monaghan/ Mr. M. Taylor/ Mr. M. Vasey

Online Safety policy

Online safety is an integral part of safeguarding and requires a whole school, cross-curricular approach and collaboration. Accordingly, this policy is written in line with 'Keeping Children Safe in Education' 2023 (KCSIE), 'Teaching Online Safety in Schools' 2019, statutory RSHE guidance 2019 and other statutory documents. It complements existing and forthcoming subjects including Health, Relationships and Sex Education, Citizenship and Computing; it is written alongside our school's statutory Safeguarding Policy. Any issues and concerns with online safety follow the school's safeguarding and child protection procedures.

This policy is a living document, subject to full annual review but also amended where necessary during the year in response to developments in the school and local area. It is written in conjunction with the DfE ['Get help with remote education'](#) guidance at [safepolicies.igfl.net](https://www.gov.uk/guidance/safepolicies-igfl-net). Although many aspects will be informed by legislation and regulations, a variety of stakeholders have been involved in writing and reviewing the policy (KCSIE stresses making use of teachers' day-to-day experience on the ground). Any changes to this policy will be immediately disseminated to all the stakeholders.

Who is in charge of online safety?

Mrs. R. Wood (DSL) is responsible for on-line safety - KCSIE makes clear that "the designated safeguarding lead should take **lead** responsibility for safeguarding and child protection (including online safety)."

What are the main online safety risks today?

Online-safety risks are traditionally categorised as one of the 3 Cs: Content, Contact or Conduct (identified by Professor Tanya Byron's 2008 report "Safer children in a digital world"). These three areas remain a helpful way to understand the risks and potential school response, whether technological or educational. They do not stand in isolation, however, and it is important to understand the interplay between all three.

Many of these new risks are mentioned in KCSIE 2021 and 2022, e.g. extra-familial harms where children are at risk of abuse or exploitation to multiple harms in situations outside their families including sexual exploitation, criminal exploitation, serious youth violence, upskirting and sticky design.

In past and potential future **remote learning and lockdowns**, there is a greater risk for grooming and exploitation (CSE, CCE and radicalisation) as children spend more time at home and on devices.

Following the government's investigation into **child-on-child sexual abuse** and [Ofsted review](#), Cayton School has reviewed our policies to ensure appropriate processes are in place to allow pupils to report sexual harassment and abuse concerns freely, knowing these will be taken seriously and dealt with swiftly and appropriately. Pupils are aware of the new [NSPCC helpline](#) and our school's internal reporting channels. As a school, we keep up to date with the latest news, risks, opportunities, best-practice and trends. Please see our child-on-child abuse policy.

How will this policy be communicated?

The Online Safety Policy will be communicated in the following ways:

- Posted on the school website
- Available on the internal staff network (shared server)
- Available in paper format in the staffroom and office

- Part of school induction pack for all new staff (including temporary, supply and non-classroom-based staff)
- Integral to safeguarding updates and training for all staff
- Clearly reflected in the Acceptable Use Policies (AUPs) for staff, volunteers, contractors, governors, pupils and parents/carers
- AUPs issued to whole school community, on entry to the school, with annual reminders of where to find them if unchanged, and reissued if updated after annual review
- AUPs are displayed in appropriate areas around school (classroom and ICT Suite)
- Reviews of this online-safety policy will include input from a variety of stakeholders.

Overview

Aims

This policy aims to:

- Set out expectations for all Cayton School stakeholders' online behaviour, attitudes and activities and use of digital technology (including when devices are offline)
- Help all stakeholders to recognise that online/digital behaviour standards (including social media activity) must be upheld beyond the confines of the school gates and school day, and regardless of device or platform
- Facilitate the safe, responsible, respectful and positive use of technology to support teaching & learning, increase attainment and prepare children and young people for the risks and opportunities of today's and tomorrow's digital world, to survive and thrive online
- Help school staff working with children to understand their roles and responsibilities to work safely and responsibly with technology and the online world:
 - for the protection and benefit of the children and young people in their care, and
 - for their own protection, minimising misplaced or malicious allegations and to better understand their own standards and practice
 - for the benefit of the school, supporting the school ethos, aims and objectives, and protecting the reputation of the school and profession
- Establish clear structures by which online misdemeanours will be treated, and procedures to follow where there are doubts or concerns (with reference to other school policies such as Behaviour Policy or Anti-Bullying Policy)

Further Help and Support

Internal school channels should always be followed first for reporting and support, as documented in school policy documents, especially in response to incidents, which should be reported in line with our Safeguarding Policy. The DSL will handle referrals to local authority multi-agency safeguarding hubs (MASH) and the Headteacher will handle referrals to the LA designated officer (LADO).

Beyond this, reporting.lgfl.net has a list of curated links to external support and helplines for both pupils and staff, including the Professionals' Online-Safety Helpline from the UK Safer Internet Centre and the new NSPCC Report Abuse Helpline for sexual harassment or abuse, as well as hotlines for hate crime, terrorism and fraud which will be shared with parents, and anonymous support for children and young people.

Scope

This policy applies to all members of the Cayton School community (including teaching and support staff, supply teachers, governors, volunteers, contractors, pupils, parents/carers and visitors who have access to our digital technology, networks and systems, whether on-site or remotely, and at any time, or who use technology in their school role.

Roles and responsibilities

This school is a community and all members have a duty to behave respectfully online and offline, to use technology for teaching and learning and to prepare for life after school, and to immediately report any concerns or inappropriate behaviour, to protect staff, pupils, families and the reputation of the school. We learn together, make honest mistakes together and support each other in a world that is online and offline at the same time.

Headteacher – Mrs. J Monaghan

Key responsibilities:

- Support safeguarding lead as they review protections for pupils in the home and remote-learning procedures, rules and safeguards.
- Foster a culture of safeguarding where online safety is fully integrated into whole-school safeguarding
- Oversee the activities of the designated safeguarding lead and ensure that the DSL responsibilities listed in the section below are being followed and fully supported
- Ensure that policies and procedures are followed by all staff

- Undertake training in offline and online safeguarding, in accordance with statutory guidance and relevant Local Safeguarding Partnerships
- Liaise with the designated safeguarding lead on all online-safety issues which might arise and receive regular updates on school issues and broader policy and practice information
- Take overall responsibility for data management and information security ensuring the school's provision follows best practice in information handling; work with the DPO, DSL and governors to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Ensure the school implements and makes effective use of appropriate ICT systems and services including school-safe filtering and monitoring, protected email systems and that all technology including cloud systems are implemented according to child-safety first principles
- Be responsible for ensuring that all staff receive suitable training to carry out their safeguarding and online safety roles
- Understand and make all staff aware of procedures to be followed in the event of a serious online safeguarding incident
- Ensure suitable risk assessments are undertaken so the curriculum meets needs of pupils, including risk of children being radicalised
- Ensure that there is a system in place to monitor and support staff who carry out internal technical online-safety procedures
- Ensure governors are regularly updated on the nature and effectiveness of the school's arrangements for online safety
- Ensure the school website meets statutory requirements.

Designated Safeguarding Lead / Online Safety Lead – Mrs. R Wood

Key responsibilities:

- KCSIE 2021 - "The designated safeguarding lead should take lead responsibility for safeguarding and child protection [including online safety] ... this lead responsibility should not be delegated"
- Work with the Headteacher to review protections for pupils in the home and remote-learning procedures, rules and safeguards.
- Ensure "An effective approach to online safety [that] empowers a school to protect and educate the whole school community in their use of technology and establishes mechanisms to identify, intervene in and escalate any incident where appropriate."
- "Liaise with staff (pastoral support teacher, school nurse, and Senior Mental Health Lead) on matters of safety and safeguarding (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies."
- Take day-to-day responsibility for online safety issues and be aware of the potential for serious child protection concerns
- Remind staff of safeguarding considerations as part of a review of remote learning procedures and technology, including that the same principles of online safety and behaviour apply
- Work with the Headteacher, DPO and governors to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Stay up to date with the latest trends in online safeguarding and "undertake Prevent awareness training." – safetraining.lgfl.net and prevent.lgfl.net
- Review and update this policy, other online safety documents (e.g. Acceptable Use Policies) and the strategy on which they are based (in conjunction with policies for behaviour, safeguarding, Prevent and others) and submit for review to the Governing Board.
- Receive regular updates in online safety issues and legislation, be aware of local and school and sign up to the LGfL safeguarding newsletter
- Ensure that online safety education is embedded across the curriculum in line with the statutory RSHE guidance (e.g. by use of the updated UKCIS framework 'Education for a Connected World – 2020 edition') and beyond, in wider school life
- Promote an awareness of and commitment to online safety throughout the school community, with a strong focus on supporting parents - parentsafe.lgfl.net
- Communicate regularly with SLT and the online safety governor to discuss current issues (anonymised), review incident logs and filtering/change control logs and discuss how filtering and monitoring work and have been functioning/helping.
- Ensure all staff are aware of the procedures that need to be followed in the event of an online safety incident, and that these are logged in the same way as any other safeguarding incident.
- Ensure adequate provision for staff to flag issues when not in school and for pupils to disclose issues when off site, especially when in isolation/quarantine/lockdown, e.g. a safe, simple, online form on the school home page about 'something that worrying me' that gets mailed securely to the DSL inbox/
- Oversee and discuss 'appropriate filtering and monitoring' with governors and ensure all staff are also aware of this.
- Facilitate training and advice for all staff, including supply teachers:
- all staff must read KCSIE Part 1 and all those working with children Annex B – translations are available in 12 community languages at kcsietranslate.lgfl.net
- it would also be advisable for all staff to be aware of Annex D (online safety)
- cascade knowledge of risks and opportunities throughout the organisation
- cpd.lgfl.net has helpful CPD materials including PowerPoints, videos and more

Governing Body, led by Online Safety / Safeguarding Link Governor – Mrs. C Tindall

Key responsibilities:-

- Approve this policy and strategy and subsequently review its effectiveness
- Ask about how the school has reviewed protections for pupils in the home and remote-learning procedures, rules and safeguards (see remotesafe.lgfl.net for guidance to policies and an infographic overview of safeguarding considerations for remote teaching technology.
- “Ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of DSL [with] lead responsibility for safeguarding and child protection (including online safety) [with] the appropriate status and authority [and] time, funding, training, resources and support...”
- Support the school in encouraging parents and the wider community to become engaged in online safety activities
- Have regular strategic reviews with the online-safety coordinator (DSL) and incorporate online safety into standing discussions of safeguarding at governor meetings
- Work with the DPO, DSL and Headteacher to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Check all school staff have read Part 1 of KCSIE; SLT and all working directly with children have read Annex B; check that Annex D on Online Safety reflects practice in your school
- “Ensure that all staff undergo safeguarding and child protection training (including online safety) at induction. The training should be regularly updated in line with advice from the local three safeguarding partners and integrated, aligned and considered as part of the overarching safeguarding approach.” There is further support for this at cpd.lgfl.net
- “Ensure appropriate filters and appropriate monitoring systems are in place but be careful that ‘overblocking’ does not lead to unreasonable restrictions as to what children can be taught with regard to online teaching and safeguarding”.
- “Ensure that children are taught about safeguarding, including online safety as part of providing a broad and balanced curriculum. Consider a whole school approach to online safety with a clear policy on the use of mobile technology.”

All staff

Key responsibilities:

- Recognise that RSE is now statutory and that it is a whole-school subject requiring the support of all staff; online safety has become core to this subject
- Understand that online safety is a core part of safeguarding; as such it is part of everyone’s job – never think that someone else will pick it up
- Know who the Designated Safeguarding Lead (DSL) and Online Safety Lead (OSL) are (Mrs. R Wood)
- Read Part 1, Annex B and Annex D of Keeping Children Safe in Education
- Read and follow this policy in conjunction with the school’s main safeguarding policy
- Record online-safety incidents in the same way as any safeguarding incident and report in accordance with school procedures
- Understand that safeguarding is often referred to as a jigsaw puzzle – you may have discovered the missing piece so do not keep anything to yourself
- Sign and follow the staff acceptable use policy and code of conduct
- Notify the DSL/OSL (Mrs. R Wood) if policy does not reflect practice in your school and follow escalation procedures if concerns are not promptly acted upon
- Identify opportunities to thread online safety through all school activities as part of a whole school approach in line with the RSHE curriculum, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise (which have a unique value for pupils)
- Whenever overseeing the use of technology in school or for homework or remote teaching, encourage and talk about appropriate behaviour and how to get help and consider potential risks and the age-appropriateness of websites (find out what appropriate filtering and monitoring systems are in place)
- When supporting pupils remotely, be mindful of additional safeguarding considerations – refer to the remotesafe.lgfl.net infographic which applies to all online learning.
- Carefully supervise and guide pupils when engaged in learning activities involving online technology, supporting them with search skills, critical thinking, age appropriate materials and signposting, and legal issues such as copyright and GDPR.
- Be aware of security best-practice at all times, including password hygiene and phishing strategies.
- Prepare and check all online source and resources before using
- Encourage pupils to follow their acceptable use policy at home as well as at school, remind them about it and enforce school sanctions.
- Notify the DSL/OSL (Mrs. R Wood) of new trends and issues before they become a problem
- Take a zero-tolerance approach to bullying and sexual harassment
- Be aware that you are often most likely to see or overhear online-safety issues (particularly relating to bullying and sexual harassment and violence) in the playground, corridors, toilets and other communal areas outside the classroom – let the DSL/OSL know
- Receive regular updates from the DSL/OSL and have a healthy curiosity for online safeguarding issues
- Model safe, responsible and professional behaviours in their own use of technology. This includes outside the school hours and site, and on social media, in all aspects upholding the reputation of the school and of the professional reputation of all staff. More guidance on this point can be found in this Online Reputation guidance for schools.

PSHE / RSHE Lead – Mrs. R Wood

Key responsibilities:

- As listed in the 'all staff' section, plus:
- Embed consent, mental wellbeing, healthy relationships and staying safe online into the PSHE / Relationships education, relationships and sex education (RSE) and health education curriculum. "This will include being taught what positive, healthy and respectful online relationships look like, the effects of their online actions on others and knowing how to recognise and display respectful behaviour online. Throughout these subjects, teachers will address online safety and appropriate behaviour in an age appropriate way that is relevant to their pupils' lives."
- This will complement the computing curriculum, which covers the principles of online safety at all key stages, with progression in the content to reflect the different and escalating risks that pupils face. This includes how to use technology safely, responsibly, respectfully and securely, and where to go for help and support when they have concerns about content or contact on the internet or other online technologies
- Work closely with all staff to ensure an understanding of the issues, approaches and messaging within PSHE / RSE
- RSE policy is included on the school website
- Work closely with the Computing subject leader to avoid overlap but ensure a complementary whole-school approach, and with all other lead staff to embed the same whole-school approach.

Computing Lead – Mrs. J Monaghan

Key responsibilities:

- As listed in the 'all staff' section, plus:
- Oversee the delivery of the online safety element of the Computing curriculum in accordance with the national curriculum
- Work closely with the RSE lead to avoid overlap but ensure a complementary whole-school approach
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Collaborate with staff and others responsible for ICT use in school to ensure a common and consistent approach, in line with acceptable-use agreements

Subject Leaders

Key responsibilities:

- As listed in the 'all staff' section, plus:
- Look for opportunities to embed online safety in your subject , especially as part of the new RSHE curriculum, and model positive attitudes and approaches to staff and pupils alike
- Consider how the UKCIS framework Education for a Connected World and Teaching Online Safety in Schools can be applied in your context
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Ensure subject specific action plans also have an online-safety element

Network Manager – Mr. M Taylor

Key responsibilities:

- As listed in the 'all staff' section, plus:
- Support the HT and DSL as they review protections for pupils in the home [e.g. DfE Umbrella scheme or LGfL HomeProtect filtering for the home] and remote-learning procedures, rules and safeguards (see remotefsafe.lgfl.net for guidance to policies and an infographic overview of safeguarding considerations for remote teaching technology.
- Keep up to date with the school's online safety policy and technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- Meet the RSHE lead to see how the online-safety curriculum delivered through this new subject can complement the school IT system and vice versa, and ensure no conflicts between educational messages and practice.
- Work closely with the designated safeguarding lead / online safety lead / data protection officer / LGfL nominated contact to ensure that school systems and networks reflect school policy
- Ensure the above stakeholders understand the consequences of existing services and of any changes to these systems (especially in terms of access to personal and sensitive records / data and to systems such as YouTube mode, web filtering settings, sharing permissions for files on cloud platforms etc
- Support and advise on the implementation of 'appropriate filtering and monitoring' as decided by the DSL and senior leadership team
- Maintain up-to-date documentation of the school's online security and technical procedures
- To report online-safety related issues that come to their attention in line with school policy
- Manage the school's systems, networks and devices, according to a strict password policy, with systems in place for detection of misuse and malicious attack, with adequate protection, encryption and backup for data, including disaster recovery plans, and auditable access controls
- Monitor the use of school technology, online platforms and social media presence and that any misuse/attempted misuse is identified and reported in line with school policy
- Work with the Headteacher to ensure the school website meets statutory DfE requirements.

Data Protection Officer (DPO) – Mr M. Taylor

Key responsibilities:

- NB – this document is not for general data-protection guidance
- Be aware that of references to the relationship between data protection and safeguarding in key Department for Education documents 'Keeping Children Safe in Education' and 'Data protection: a toolkit for schools' (August 2018), especially this quote from the latter document:
- "GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Lawful and secure information sharing between schools, Children's Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. The Data Protection Act 2018 introduced 'safeguarding' as a reason to be able to process sensitive, personal information, even without consent (DPA, Part 2,18; Schedule 8, 4) When Designated Safeguarding Leads in schools are considering whether, or not, to share safeguarding information (especially with other agencies) it is considered best practice for them to record who they are sharing that information with and for what reason. If they have taken a decision not to seek consent from the data subject and/or parent/carer that should also be recorded within the safeguarding file. All relevant information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information must not be allowed to stand in the way of promoting the welfare and protecting the safety of children."
- The same document states that the retention schedule for safeguarding records may be required to be set as 'Very long term need (until pupil is aged 25 or older)'. However, some local authorities require record retention until 25 for all pupil records. An example of an LA safeguarding record retention policy can be read at safepolicies.lgfl.net
- Work with the DSL, Headteacher and governors to ensure frameworks are in place for the protection of data and of safeguarding information sharing as outlined above
- Ensure that all access to safeguarding data is limited as appropriate, and also monitored and audited

Volunteers and contractors

Key responsibilities:

- Read, understand, sign and adhere to an acceptable use policy (AUP)
- Report any concerns, no matter how small, to the designated safety lead / online safety coordinator as named in the AUP
- Maintain an awareness of current online safety issues and guidance
- Model safe, responsible and professional behaviours in their own use of technology at school and as part of remote teaching or any online communications
- Note that as per AUP agreement a contractor will never attempt to arrange any meeting, including tutoring session, without the full prior knowledge and approval of the school, and will never do so directly with a pupil. The same applies to any private/direct communication with a pupil.

Pupils

Key responsibilities:

- Read, understand, sign and adhere to the pupil acceptable use policy and review this annually
- Treat home learning during any isolation/quarantine or bubble/school lockdown in the same way as regular learning in school and behave as if a teacher or parent were watching the screen
- Avoid any private communication or use of personal logins/systems to communicate with or arrange meetings with school staff
- Understand the importance of reporting abuse, misuse or access to inappropriate materials, including any concerns about a member of school staff or supply teacher
- Know what action to take if they or someone they know feels worried or vulnerable when using online technology, at school, home or anywhere else.
- To understand the importance of adopting safe and responsible behaviours and good online safety practice when using digital technologies outside of school and realise that the school's acceptable use policies cover actions out of school, including on social media
- Remember the rules on the misuse of school technology – devices and logins used at home should be used just like if they were in full view of a teacher
- Understand the benefits/opportunities and risks/dangers of the online world and know who to talk to at school or outside school if there are problems.

Parents/carers

Key responsibilities:

- Read, sign and promote the school's parental acceptable use policy (AUP) and read the pupil AUP and encourage their children to follow it
- Consult with the school if they have any concerns about their children's and others' use of technology
- Promote positive online safety and model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers.
- Encourage children to engage fully in home-learning during any period of isolation/quarantine or bubble/school closure and flag any concerns

- Support the child during remote learning to avoid video calls in a bedroom if possible and if not, to ensure the child is fully dressed and not in bed, with the camera pointing away from beds/bedding/personal information etc. and the background blurred or changed where possible.
- If organising private online tuition, remain in the room if possible, ensure the child knows tutors should not arrange new sessions directly with the child or attempt to communicate privately. Further advice available in the Online Tutors – Guidance for Parents and Carers poster at parentsafe.lgfl.net, which is a dedicated parent portal offering updated advice and resources to help parents keep children safe online

External groups – Out of school extra-curricular activities

Key responsibilities:

- Any external individual/organisation will sign an acceptable use policy prior to using technology or the internet within school
- Support the school in promoting online safety and data protection
- Model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers

Education and curriculum

The following subjects have the clearest online safety links:

- Relationships education, relationships and sex education (RSE) and health (also known as RSHE or PSHE)
- Computing
- Citizenship

However, as stated in the role descriptors above, it is the role of all staff to identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise.

Whenever overseeing the use of technology (devices, the internet, new technology such as augmented reality, etc) in school or setting as homework tasks, all staff should encourage sensible use, monitor what pupils are doing and consider potential dangers and the age appropriateness of websites (ask your DSL what appropriate filtering and monitoring policies are in place).

Equally, all staff should carefully supervise and guide pupils when engaged in learning activities involving online technology (including, extra-curricular, extended school activities if relevant and remote teaching), supporting them with search skills, critical thinking (e.g. fake news), age appropriate materials and signposting, and legal issues such as copyright and data law. saferesources.lgfl.net has regularly updated theme-based resources, materials and signposting for teachers and parents.

At Cayton School, we recognise that online safety and broader digital resilience must be thread throughout the curriculum and that is why we are working to adopt the cross-curricular framework 'Education for a Connected World – 2020 edition' from UKCIS (the UK Council for Internet Safety).

Annual reviews of curriculum plans and schemes of work (including for SEND pupils) are used as an opportunity to follow this framework more closely in its key areas of Self-image and Identity, Online relationships, Online reputation, Online bullying, Managing online information, Health, Wellbeing and lifestyle, Privacy and security, and Copyright and ownership.

Handling online-safety concerns and incidents

It is vital that all staff recognise that online-safety is a part of safeguarding (as well as being a curriculum strand of Computing, PSHE/RSE and Citizenship).

General concerns must be handled in the same way as any other safeguarding concern; safeguarding is often referred to as a jigsaw puzzle, so all stakeholders should err on the side of talking to the online-safety lead / designated safeguarding lead to contribute to the overall picture or highlight what might not yet be a problem.

Support staff will often have a unique insight and opportunity to find out about issues first in the playground, corridors, toilets and other communal areas outside the classroom (particularly relating to bullying and sexual harassment and violence).

School procedures for dealing with online-safety will be mostly detailed in the following policies (primarily in the first key document):

- Safeguarding and Child Protection Policy
- Child on Child Abuse Policy
- Anti-Bullying Policy
- Behaviour Policy
- Acceptable Use Policies
- Prevent Risk Assessment / Policy
- Data Protection Policy, agreements and other documentation (e.g. privacy statement and consent forms for data sharing, image use etc)

Cayton School commits to take all reasonable precautions to ensure online safety, but recognises that incidents will occur both inside school and outside school (and that those from outside school will continue to impact pupils when they come into school or during

extended periods away from school). All members of the school are encouraged to report issues swiftly to allow us to deal with them quickly and sensitively through the school's escalation processes.

Any suspected online risk or infringement should be reported to the online safety lead / designated safeguarding lead on the same day – where clearly urgent, it will be made by the end of the lesson.

Any concern/allegation about staff misuse is always referred directly to the Headteacher, unless the concern is about the Headteacher in which case the complaint is referred to the Chair of Governors and the LADO (Local Authority's Designated Officer). Staff may also use the NSPCC Whistleblowing Helpline (see poster in the staffroom).

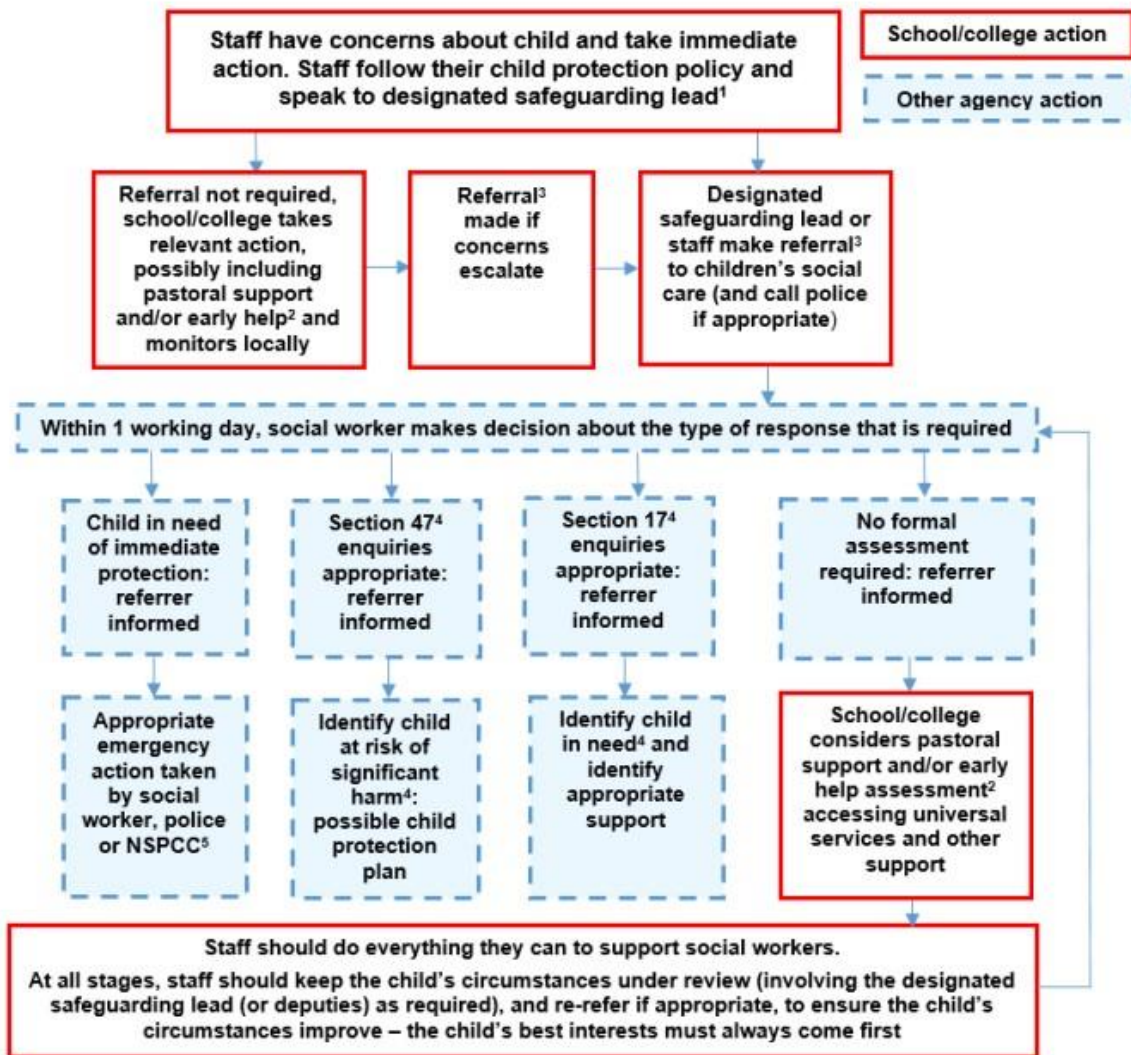

The school will actively seek support from other agencies as needed (i.e. the local authority, LGfL, UK Safer Internet Centre's Professionals' Online Safety Helpline (POSH), NCA CEOP, Prevent Officer, Police, IWF). We will inform parents/carers of online-safety incidents involving their children, and the Police where staff or pupils engage in or are subject to behaviour which we consider is particularly disturbing or breaks the law (particular procedures are in place for sexting and upskirting; see section below).

Actions where there are concerns about a child

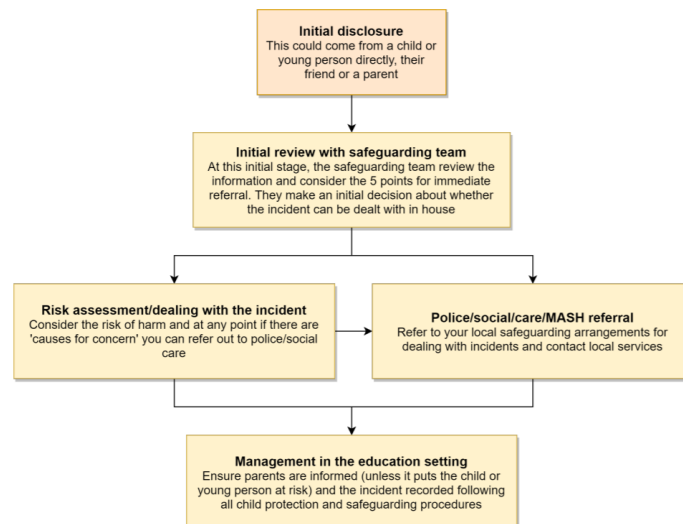

The following flow chart is taken from page 22 of Keeping Children Safe in Education 2023 as the key education safeguarding document. As outlined previously, online safety concerns are no different to any other safeguarding concern.

Actions where there are concerns about a child

1 In cases which also involve a concern or an allegation of abuse against a staff member, see Part four of this guidance. 2 Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. See Working Together to Safeguard Children for further guidance 3 Referrals should follow the process set out in the local threshold document and local protocol for assessment. Chapter one of Working Together to Safeguard Children. 4 Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989. Under section 47 of the Children Act 1989, where a local authority has reasonable cause to suspect that a child is suffering or likely to suffer significant harm, it has a duty to make enquiries to decide whether to take action to safeguard or promote the child's welfare. Full details are in Chapter one of Working Together to Safeguard Children. 5 This could include applying for an Emergency Protection Order (EPO).

***Consider the 5 points for immediate referral at initial review:**

1. The incident involves an adult
2. There is reason to believe that a child or young person has been coerced, blackmailed or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs)
3. What you know about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
4. The images involves sexual acts and any pupil in the images or videos is under 13
5. You have reason to believe a child or young person is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example, they are presenting as suicidal or self-harming

It is important that everyone understands that whilst sexting is illegal, pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

The documents referenced above and materials to support teaching about sexting can be found at sexting.lgfl.net

There is a new childline and internet watch foundation (IWF) where you can 'Report Remove' any images.

Upskirting

It is important that everyone understands that upskirting (taking a photo of someone under their clothing, not necessarily a skirt) is now a criminal offence, as highlighted in Keeping Children Safe in Education and that pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

Bullying

Online bullying should be treated like any other form of bullying and the school bullying policy should be followed for online bullying, which may also be referred to as cyberbullying, including issues arising from banter.

Sexual violence and harassment

Any incident of sexual harassment or violence (online or offline) should be reported to the DSL who will follow the full guidance. Staff should work to foster a zero-tolerance culture. The guidance stresses that schools must take all forms of sexual violence and harassment seriously, explaining how it exists on a continuum and that behaviours incorrectly viewed as 'low level' are treated seriously and not allowed to perpetuate. The document makes specific reference to behaviours such as bra-strap flicking and the careless use of language.

Misuse of school technology (devices, systems, networks or platforms)

Clear and well communicated rules and procedures are essential to govern pupil and adult use of school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

These are defined in the relevant Acceptable Use Policy as well as in this document, for example in the sections relating to the professional and personal use of school platforms/networks/clouds, devices and other technology, as well as to BYOD (bring your own device) policy.

Where pupils contravene these rules, the school behaviour policy will be applied; where staff contravene these rules, action will be taken as outlined in the staff code of conduct.

Further to these steps, the school reserves the right to withdraw – temporarily or permanently – any or all access to such technology, or the right to bring devices onto school property.

Social media incidents

See the social media section later in this document for rules and expectations of behaviour for children and adults in the Cayton School community. These are also governed by school Acceptable Use Policy.

Breaches will be dealt with in line with the school behaviour policy (for pupils) or code of conduct (for staff).

Further to this, where an incident relates to an inappropriate, upsetting, violent or abusive social media post by a member of the school community, the school will request that the post be deleted and will expect this to be actioned promptly.

Where an offending post has been made by a third party, the school may report it to the platform it is hosted on, and may contact the Professionals' Online Safety Helpline, POSH, (run by the UK Safer Internet Centre) for support or help to accelerate this process.

Data protection and data security

GDPR information on the relationship between the school and LGfL can be found at gdpr.lgfl.net; there are useful links and documents to support schools with data protection in the 'Resources for Schools' section of that page.

There are references to the relationship between data protection and safeguarding in key Department for Education documents 'Keeping Children Safe in Education' and 'Data protection: a toolkit for schools' (August 2018):

"GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Lawful and secure information sharing between schools, Children's Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. **The Data Protection Act 2018 introduced 'safeguarding' as a reason to be able to process sensitive, personal information, even without consent** (DPA, Part 2,18; Schedule 8, 4) When Designated Safeguarding Leads in schools are considering whether, or not, to share safeguarding information (especially with other agencies) **it is considered best practice for them to record who they are sharing that information with and for what reason. If they have taken a decision not to seek consent from the data subject and/or parent/carer that should also be recorded within the safeguarding file. All relevant information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information must not be allowed to stand in the way of promoting the welfare and protecting the safety of children."**

All pupils, staff, governors, volunteers, contractors and parents are bound by the school's data protection policy and agreements.

The Headteacher, data protection officer and governors work together to ensure a GDPR-compliant framework for storing data, but which ensures that child protection is always put first and data-protection processes support careful and legal sharing of information.

Staff are reminded that all safeguarding data is highly sensitive and should be treated with the strictest confidentiality at all times, and only shared via approved channels to colleagues or agencies with appropriate permissions. The use of Egress to encrypt all non-internal emails is compulsory for sharing pupil data. If this is not possible, the DPO and DSL should be informed in advance.

Appropriate filtering and monitoring

Keeping Children Safe in Education obliges schools to “ensure appropriate filters and appropriate monitoring systems are in place [and] not be able to access harmful or inappropriate material [but at the same time] be careful that “over blocking” does not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding.”

Filtering and monitoring – KCSIE 2023

141. Whilst considering their responsibility to safeguard and promote the welfare of children and provide them with a safe environment in which to learn, governing bodies and proprietors should be doing all that they reasonably can to limit children’s exposure to the above risks from the school’s or college’s IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified. Governing bodies and proprietors should consider the number of and age range of their children, those who are potentially at greater risk of harm and how often they access the IT system along with the proportionality of costs versus safeguarding risks.

142. The appropriateness of any filtering and monitoring systems are a matter for individual schools and colleges and will be informed in part, by the risk assessment required by the Prevent Duty³⁹. To support schools and colleges to meet this duty, the Department for Education has published filtering and monitoring standards which set out that schools and colleges should:

- identify and assign roles and responsibilities to manage filtering and monitoring systems
- review filtering and monitoring provision at least annually
- block harmful and inappropriate content without unreasonably impacting teaching and learning
- have effective monitoring strategies in place that meet their safeguarding needs.

Governing bodies and proprietors should review the standards and discuss with IT staff and service providers what more needs to be done to support schools and colleges in meeting this standard.

Additional guidance on “appropriate” filtering and monitoring can be found at: UK Safer Internet Centre:
<https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>.

At this school, the internet connection is provided by NYCC. This means we have a dedicated and secure, school safe connection that is protected with fire walls and multiple layers of security, including a web filtering system, which is made specifically to protect children in schools. We use ‘Smoothwall’ as our Monitoring and filtering system that is ‘live’.

There are three types of appropriate monitoring identified by the Safer Internet Centre. These are:

1. Physical monitoring (adult supervision in the classroom, at all times)
2. Internet and web access
3. Active/Pro-active technology monitoring services

Electronic communications

Please read this section alongside references to pupil-staff communications in the overall school Safeguarding Policy, and in conjunction with the Data Protection Policy. This section only covers electronic communications, but the same principles of transparency, appropriate conduct and audit trail apply.

Email

- Staff at this school use the school system for all school emails
- This is for the mutual protection and privacy of all staff, pupils and parents, as well as to support data protection.
- General principles for email use are as follows:
- Email, Dojo and ParentPay are the only means of electronic communication to be used between staff and pupils / staff and parents (in both directions). Use of a different platform must be approved in advance by the data-protection officer / Headteacher. Any unauthorised attempt to use a different system may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).
- Email may only be sent using the email systems above. There should be no circumstances where a private email is used; if this happens by mistake, the DSL/Headteacher/DPO (the particular circumstances of the incident will determine whose remit this is) should be informed immediately.
- Staff or pupil personal data should never be sent/shared/stored on email.
 - If data needs to be shared with external agencies.
 - Internally, staff should use the school network, including when working from home when remote access is available.

- Appropriate behaviour is expected at all times, and the system should not be used to send inappropriate materials or language which is or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which (for staff) might bring the school into disrepute or compromise the professionalism of staff
- Staff are allowed to use the email system for reasonable (not excessive, not during lessons) personal use but should be aware that all use is monitored, their emails may be read and the same rules of appropriate behaviour apply at all times. Emails using inappropriate language, images, malware or to adult sites may be blocked and not arrive at their intended destination.

School website

The school website is a key public-facing information portal for the school community (both existing and prospective stakeholders) with a key reputational value. The Headteacher and Governors have delegated the day-to-day responsibility of updating the content of the website to Mr. M Taylor.

The DfE has determined information which must be available on a school website.

Where other staff submit information for the website, they are asked to remember:

- Schools have the same duty as any person or organisation to respect and uphold copyright law – schools have been fined thousands of pounds for copyright breaches. Sources must always be credited and material only used with permission. If in doubt, check with Mr M. Taylor. There are many open-access libraries of high-quality public-domain images that can be used (e.g. pixabay.com for marketing materials – beware some adult content on this site).
- Where pupil work, images or videos are published on the website, their identities are protected and full names are not published.

Cloud platforms

For online safety, basic rules of good password hygiene (“Treat your password like your toothbrush –never share it with anyone!”), expert administration and training can help to keep staff and pupils safe, and to avoid incidents. The data protection officer and network manager analyse and document systems and procedures before they are implemented, and regularly review them.

The following principles apply:

- Privacy statements inform parents when and what sort of data is stored in the cloud
- The DPO approves new cloud systems, what may or may not be stored in them and by whom. This is noted in a DPIA (data-protection impact statement) and parental permission is sought
- Regular training ensures all staff understand sharing functionality and this is audited to ensure that pupil data is not shared by mistake. Open access or widely shared folders are clearly marked as such
- Pupils and staff are only given access and/or sharing rights when they can demonstrate an understanding of what data may be stored and how it can be seen
- Two-factor authentication is used for access to staff or pupil data
- Pupil images/videos are only made public with parental permission
- Only school-approved platforms are used by students or staff to store pupil work
- All stakeholders understand the difference between consumer and education products (e.g. a private Gmail account or Google Drive and those belonging to a managed educational domain)

Digital images and video

When a pupil joins the school, parents/carers are asked if they give consent for their child’s image to be captured in photographs or videos, for what purpose (beyond internal assessment, which does not require express consent) and for how long. Parents answer as follows:

- For displays around the school
- For the newsletter
- For use in paper-based school marketing
- For online prospectus or websites
- For a specific high profile image for display or publication
- For social media

Whenever a photo or video is taken/made, the member of staff taking it will check the latest database before using it for any purpose. Any pupils shown in public facing materials are never identified with more than first name.

All staff are governed by their contract of employment and the school’s Acceptable Use Policy. At Cayton School, staff are able to use their mobile phones and smart technology (including smart watches) to access CPOM’s authorisation only.

Photos are stored on the school network in line with the retention schedule of the school Data Protection Policy.

Staff and parents are reminded annually about the importance of not sharing without permission, due to reasons of child protection (e.g. looked-after children often have restrictions for their own protection), data protection, religious or cultural reasons, or simply for reasons of personal privacy.

We encourage young people to think about their online reputation and digital footprint, so we should be good adult role models by not oversharing (or providing embarrassment in later life – and it is not for us to judge what is embarrassing or not).

Pupils are taught about how images can be manipulated in their online safety education programme and also taught to consider how to publish for a wide range of audiences which might include governors, parents or younger children.

Pupils are advised to be very careful about placing any personal photos on social media. They are taught to understand the need to maintain privacy settings so as not to make public, personal information.

Pupils are taught that they should not post images or videos of others without their permission. We teach them about the risks associated with providing information with images (including the name of the file), that reveals the identity of others and their location. We teach them about the need to keep their data secure and what to do if they / or a friend are subject to bullying or abuse.

Social media

Cayton School's SM presence

Cayton School works on the principle that if we don't manage our social media reputation, someone else will.

Online Reputation Management (ORM) is about understanding and managing our digital footprint (everything that can be seen or read about the school online). Few parents will apply for a school place without first 'googling' the school, and the Ofsted pre-inspection check includes monitoring what is being said online.

Negative coverage almost always causes some level of disruption. Up to half of all cases dealt with by the Professionals Online Safety Helpline (POSH: helpline@saferinternet.org.uk) involve schools' (and staff members') online reputation.

Accordingly, we manage and monitor our social media footprint carefully to know what is being said about the school and to respond to criticism and praise in a fair, responsible manner.

Mr. M Taylor is responsible for managing our Twitter/Facebook/and other social media accounts and checking our Wikipedia and Google reviews. He follows the guidance in the LGfL / Safer Internet Centre online-reputation management document [here](#).

Staff, pupils' and parents' SM presence

Social media is a fact of modern life, and as a school, we accept that many parents, staff and pupils will use it. However, as stated in the acceptable use policies which all members of the school community sign, we expect everybody to behave in a positive manner, engaging respectfully with the school and each other on social media, in the same way as they would face to face.

This positive behaviour can be summarised as not making any posts which are or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which might bring the school or (particularly for staff) teaching profession into disrepute. This applies both to public pages and to private posts, e.g. parent chats, pages or groups.

If parents have a concern about the school, we would urge them to contact us directly and in private to resolve the matter. If an issue cannot be resolved in this way, the school complaints procedure should be followed. Sharing complaints on social media is unlikely to help resolve the matter, but can cause upset to staff, pupils and parents, also undermining staff morale and the reputation of the school (which is important for the pupils we serve).

Many social media platforms have a minimum age of 13 (note that WhatsApp is 16+), but the school regularly deals with issues arising on social media with pupils under the age of 13. We ask parents to respect age ratings on social media platforms wherever possible and not encourage or condone underage use. It is worth noting that Online Harms regulation is likely to require more stringent age verification measures over the coming years.

However, the school has to strike a difficult balance of not encouraging underage use at the same time as needing to acknowledge reality in order to best help our pupils to avoid or cope with issues if they arise. Online safety lessons will look at social media and other online behaviour, how to be a good friend online and how to report bullying, misuse, intimidation or abuse. However, children will often learn most from the models of behaviour they see and experience, which will often be from adults.

Parents can best support this by talking to their children about the apps, sites and games they use (you don't need to know them – ask your child to explain it to you), with whom, for how long, and when (late at night / in bedrooms is not helpful for a good night's sleep and productive teaching and learning at school the next day).

The school has an official Facebook / Twitter / Instagram account (managed by Mr. M Taylor/ Mr. M Vasey) and will respond to general enquiries about the school, but asks parents/carers not to use these channels to communicate about their children. Email, Dojo and ParentPay are the official electronic communication channels between parents and the school.

Pupils are discouraged from 'following' staff, governor, volunteer or contractor public accounts (e.g. following a staff member with a public Instagram account). However, we accept that this can be hard to control (but this highlights the need for staff to remain professional in their private lives). In the reverse situation, however, staff must not follow such public pupil accounts.

Exceptions may be made, e.g. for pre-existing family links, but these must be approved by the Headteacher, and should be declared upon entry of the pupil or staff member to the school.

Any attempt to do so may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

Staff are reminded that they are obliged not to bring the school or profession into disrepute and the easiest way to avoid this is to have the strictest privacy settings and avoid inappropriate sharing and oversharing online. They should never discuss the school or its stakeholders on social media and be careful that their personal opinions might not be attributed to the school, trust or local authority, bringing the school into disrepute.

The serious consequences of inappropriate behaviour on social media are underlined by the fact that during the last 5 years, there have been 263 Prohibition Orders issued by the Teacher Regulation Agency to teaching staff that involved misuse of social media/technology.

All members of the school community are reminded that particularly in the context of social media, it is important to comply with the school policy on Digital Images and Video and permission is sought before uploading photographs, videos or any other information about other people.

The statements of the Acceptable Use Policies (AUPs) which all members of the school community have signed are also relevant to social media activity, as is the school's Data Protection Policy.

Device usage

Remind those with access to school devices about rules on the misuse of school technology – devices used at home should be used just like if they were in full view of a teacher or colleague. Please read the following in conjunction with acceptable use policies and the following sections of this document which all impact upon device usage: copyright, data protection, social media, misuse of technology, and digital images and video.

Personal devices including wearable technology and bring your own device (BYOD)

- Pupils are allowed to bring mobile phones in if they require them for safety (walking home) and signed in and out at the school office at the beginning and end of the day. Important messages and phone calls to or from parents can be made using the schools landline at the school office, Miss Clough will also pass on messages from parents to pupils in emergencies. Children are not allowed to wear smart watches that have a recording facility.
- All staff who work directly with children should leave their mobile phones on silent and only use them in private staff areas during school hours unless they need to access them for CPOM'S notifications.
- Volunteers, contractors, governors should leave their phones in their pockets and turned off. Under no circumstances should they be used in the presence of children or to take photographs or videos. If this is required (e.g. for contractors to take photos of equipment or buildings), permission of the Office Manager (Miss. H Clough) should be sought and this should be done in the presence of a member of staff.
- Parents are asked to leave their phones in their pockets and turned off when they are on site. They should ask permission before taking any photos, e.g. of displays in corridors or classrooms, and avoid capturing other children. When at school events, please refer to the Digital images and video section of this document on page. Parents are asked not to call pupils on their mobile phones during the school day; urgent messages can be passed via the school office.

Network / internet access on school devices

- Home devices from the DfE scheme are issued to some pupils. These are restricted to the apps/software installed by the school and may be used for learning and reasonable and appropriate personal use at home, but all usage may be tracked. The devices are monitored when on home wifi connections.
- All staff who work directly with children should leave their mobile phones on silent and only use them in private staff areas during school hours, unless access is needed for CPOM'S notifications. See also the Digital images and video section on page and Data protection and data security section on page. Child/staff data should never be downloaded onto a private phone.
- Volunteers, contractors, governors have no access to the school network or wireless internet on personal devices.
- Parents have no access to the school network or wireless internet on personal devices.

Trips / events away from school

For school trips/events away from school, teachers using their personal phone in an emergency will ensure that the number is hidden to avoid a parent or student accessing a teacher's private phone number. A school camera is available for all trips.

Searching and confiscation

In line with the DfE guidance '[Searching, screening and confiscation: advice for schools](#)', the Headteacher and staff authorised by them have a statutory power to search pupils/property on school premises. This includes the content of mobile phones and other devices, for example as a result of a reasonable suspicion that a device contains illegal or undesirable material, including but not exclusive to sexual images, pornography, violence or bullying.

Full details of the school's search procedures are available in the school Behaviour Policy.
